

Northfield School & Sports College

Northfield School & Sports College, situated in Billingham, is on track to provide an iPad to every student and member of staff by 2025 in collaboration with Sync.

Their vision is to ensure that every pupil has access to technology to enhance their learning experience, both inside the classroom and at home.

We spoke to Head of IT, Ollie Fishburn to learn the full impact of their iPad deployment.

sync

Device management & teaching tools.

According to Ollie, the key to a successful implementation of iPad within the classroom is automation, device management and acknowledging the ability level of users.

“We're trying to make it as accessible as humanly possible, without breaking the bank”

Ollie Fishburn, Head of IT

For effective management of the school's Apple estate, Ollie advocates for **Jamf School**. This has been instrumental in the ongoing maintenance and management of devices as Jamf School connects every essential system in play, such as Salamander Soft and Office 365, to enable fast onboarding, Single-Sign On and effective safeguarding measures.

Ollie stresses the importance of accepting that not everyone has the same skills and experience to fully utilise iPad capabilities for teaching and learning. To enhance teachers' confidence with new technology, Northfield School & Sports College streamlined the use of applications to several Core Apps; these include Showbie, Socrative and Microsoft Teams, which are essential tools that staff must know how to utilise effectively.

Widening access to tech for learning.

Situated in an area with limited access to technology in households, parental contribution is not always a given. CHG-MERIDIAN makes it easier to put high value devices in the hands of every student, regardless of their background.

CHG-MERIDIAN are invaluable to schools in low-income areas, with a range of pricing packages to suit every budget. Northfield School's solution is offering flexible parental contribution schemes, understanding the varying economic backgrounds of all students.

Parental Contribution for Everyone.

Northfield introduced a unique, flexible Parental Contribution plan, understanding the varying economic backgrounds of all students, aiming to make technology inclusive to all. This plan supports the financial sustainability of the programme, whilst also ensuring that every student has access to technology.

As education standards evolve, Northfield School & Sports College have found CHG-MERIDIAN to offer the experienced and consistent support needed to successfully roll out the programme.

Bridging the Digital Divide

Every child deserves access to education, no matter their background. The work that Northfield School and Sports College is doing in partnership with CHG-MERIDIAN is bridging the gap between economic status and equitable access to tools and resources that support teaching and learning.

Sync has over 30 years of experience supporting schools across the UK. From procurement to integration and even CPD, think Sync.

CHG-MERIDIAN provided invaluable support to Northfield when looking for a solution to fit their financial needs.

CHG-MERIDIAN supports a wide range of schools to save both time and money, by providing customised leasing solutions, allowing teachers and children access to the latest technology.

No matter how students learn, there's an iPad for that.

Northfield intend to roll out iPad to all staff and students by deploying iPad in staggered intervals across each year group. Because iPad is reliable, cost-effective and retains a high value, when students graduate from high school, their devices can be redistributed.

iPad is perfect for modern education, with in-built features & benefits that act as a platform to enhance education for staff and students alike.

Take the magical, colourful, capable iPad to school.

Colourfully reimagined and more capable than ever. With the powerful A14 Bionic chip, educators can help students do everything from sketching ideas to learning to code.

Students can get excited about capturing vivid detail in photos and videos for their projects. And lessons come alive on the immersive 10.9-inch Liquid Retina display.¹ iPad is designed for all the ways students love to learn.

From £9.29 /month*
